About Summit

Summit Financial resources provides accounts receivable financing to small and medium-sized businesses in a broad range of industries.

Our programs are designed for businesses in need of transition Financing – whether that is for newly formed companies, existing businesses needing to adequately fund growth, or for businesses that may be experiencing other challenges.

Programs Offered

Summit provides transitional financing through a variety of structures, all of which involve lending against a company's accounts receivable:

- Invoice Factoring
- Asset-Based Lending
- Inventory Lending

We offer:

- Credit lines ranging from \$100,000 to \$4,000,000
- Advance rates up to:
 - 90% of accounts receivable
 - 50% of inventory cost
- Nationwide funding

Benefits

A key benefit of accounts receivable financing is the profit potential of growth fueled by a predictable, accelerated cash flow. When used to stimulate the growth of a financially challenged company, working capital financing becomes a beneficial and sometimes critical tool.

Summit provides you with cash flow to:

- Meet payroll
- Replenish inventory
- Not turn away business
- Reduce your cost of collection
- Generate more sales and profits
- Meet obligations in a timely manner
- Expand operations and grow your business
- Negotiate better terms and prices from suppliers
- Take cash discounts on your purchases from suppliers
- Possibly eliminate the cash discount you offer to customers

Our Prospects

Summit assists companies that:

- Need to fund rapid growth
- Need capital for acquisitions
- Get paid quicker than customers are paying
- Are seeking cash flow to even out sales seasonality
- May have reached a borrowing ceiling with their bank
- Are established and need a working capital alternative
- Are young and unable to obtain traditional bank financing
- Need cash flow to fund payroll and normal operating expenses
- Have faced challenging times and their bank is unable to extend or renew credit line

Thank you!
